## Business Programme

Consultation and remedial services are offered on the following:

### Diamond Feng Shui

- ❖ To relate and map the compass directions to the significant aspects of **Success, Relationships, Knowledge, and Health**
- ❖ To optimise the timing of commercial activities
- ❖ To create surroundings which reflect aims and objectives and which are conducive to achieving them

### Diamond Dowsing

- ❖ To locate and neutralise subtle energetic effects from e.g. water veins & electrical field disturbances
- ❖ "Space Clearing" - to release any subtle energetic blockages or geopathic stress affecting the workplace and people

"One person's Magic is  
another's Technology"

### Inner Harmony & External Surroundings

Diamond Feng Shui and Diamond Dowsing allow connection with a **Dynamic Process** concerning **Space** and **Time**. It is well documented that the colours, symbols and placement of certain objects around you do affect your performance and how you feel. Similarly, there is an optimum time to 'sell' and an optimum time to stay in and 'tidy the house'.

Acting with **Intention** further enhances the effects at a subtle energetic level.

For individuals, **Positive Effects** documented from applying the techniques include:

- ❖ Being less tired
- ❖ Better concentration and focus
- ❖ Being more creative
- ❖ Better time management
- ❖ More effective communication
